The screenshot shows a Google Meet window with a browser tab open to 'meet.google.com/zke-fzuj-kss'. The browser displays the 'SW Expert Academy' website, specifically the '1946. 간단한 압축 풀기' problem page. The page includes a table with statistics: 6,772 participants, 10,697 submissions, 6,002 accepted, 56.11% accuracy, and 50 points. The problem description is in Korean, mentioning constraints like time limit (30s), memory limit (256MB), and input/output formats. On the right side of the Meet window, there is a sidebar with three video thumbnails of participants, each with a name tag: '조윤식' (Jo Yun-sik), '윤식' (Yun-sik), and '한경문' (Han Gyeong-mon).
